

# At Cost Metals 1 Page Overview

**\$399 ACM Plus Package:** 18 months of cost pricing of bullion and access to at cost pricing of the DAP Vault. Also included are 3 perfect MS70 graded numismatic 1 oz silver coins.

**\$149 At Cost Metals Package:** 1 year of at cost pricing of bullion and access to at cost pricing of the DAP Vault.

Notes: All products are of physical metals. You can use the vault or have them shipped. Metals in the vault can be shipped or sold back at any time. Shipping and Handling is not a profit center for the company. The vault is a 3<sup>rd</sup> party we have contracted. It's the strongest rated, most-secure, best equipped, fully insured place to store many billions worth of precious metals.

## Price / Spread

The price our customers buy bullion is the same as our cost. Each kind of bullion has its own price over spot. Example: Silver Eagles have a different price than generic silver bars but all still sold at cost. All bullion prices are based on spot and updated about every 20 seconds. The difference between a buy price and sell price is called the "spread". Every metal vendor has their own spread. Our typical spread is around 2% or less. This is **extremely** good compared to the rest of the world.
